

Hestia ERP

The AI-enabled Operations Platform for
Manufacturers.

Legacy ERPs are costing textile manufacturers their profits and their future.

Presenting Hestia ERP

Hestia is the intelligent ERP for textile manufacturers, automating EU compliance and production tracking.

The Intelligent ERP for Textile Manufacturers

We automate EU compliance and production tracking, replacing costly and unreliable legacy systems.

Automated DPP Compliance

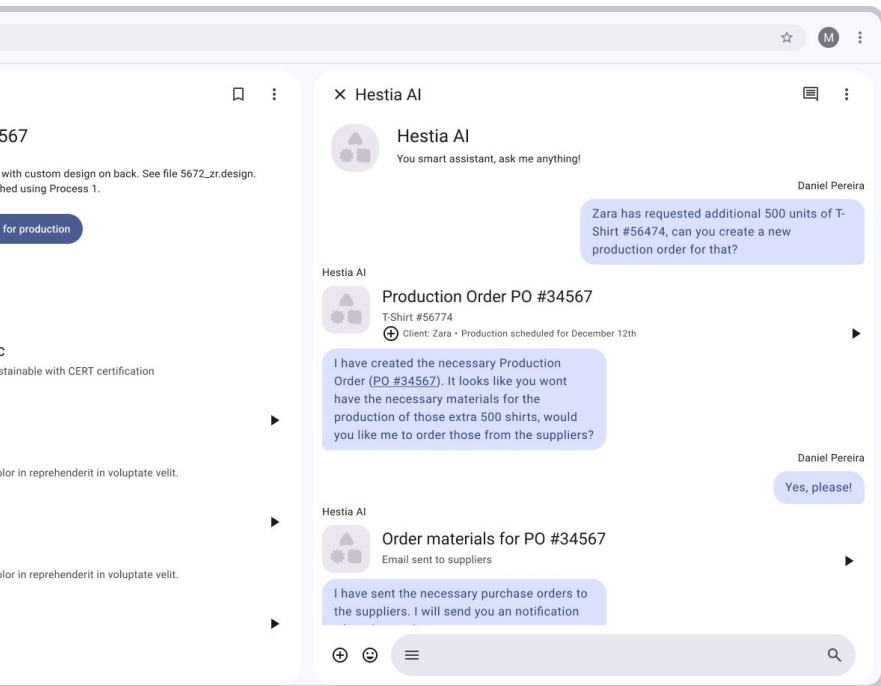

AI-Powered Data Validation

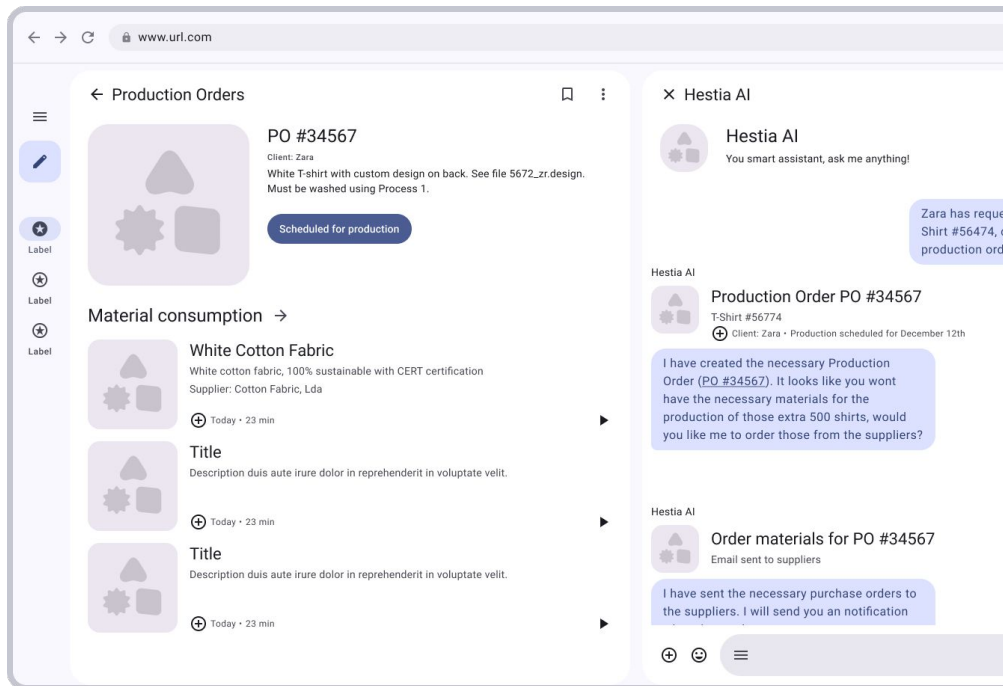

Real-Time Production Visibility

The Intelligent ERP for Textile Manufacturers

Find errors using our AI before they become expensive

Instantly know the status of every order, without walking the factory floor or checking a spreadsheet.

A €2 Billion Market Ripe for Disruption

Phase 3: Become the Standard for EU Manufacturing

Phase 2: Conquer EU Textiles

Phase 1: Dominate the Portuguese
Textile Market
